The Narrative Form is designed to help you, the application review, interested agencies, and adjacent property owners to the proposal understand the scope of your project and how your project meets the legal requirements in the Yakima County Codes. You should refer to the appropriate sections of the ordinance when describing your proposal if applicable. You can obtain a copy of the ordinance in our office or access it on the internet at:

<http://codepublishing.com/wa/yakimacounty/>

Narrative Content: Please tell us the “who”, “what”, “where”, and “why” of your proposal. A list of typical content is provided below. **Please do not limit your project’s description to just these items.** In order for us to conduct a timely review of your project please **be as detailed as possible.** Any missing/confusing information could result in the delay of our review.

Note: Not all content listed below will be pertinent to your proposal. These items are suggestions in order to help you draft your narrative.

Suggested Content:

- Describe the current use of the site including all existing structures with their dimensions, square footage and usage.
- Describe the proposed use in detail (including but not limited to the type of business and/or use, hours and days of operation, number of employees, number of people living on-site, maximum number of customers and/or guests, changes or additions to the driveways or other access points, the type of mitigation or adjustment requested).
- Describe which standards are proposed to be adjusted and justify why the standard needs to be adjusted.
- Describe any new or existing structures to be used as part of this proposal.
- Describe how the proposed use will be pertinent to the proposed/existing structures.
- Describe any parking facilities (number of spaces and surface type), landscaping, signage, and lighting that will be associated with your proposal.
- Describe your access to the property and the route of travel to the site.
- For commercial operations describe the travel ways that will be located onsite.
- Describe the timelines for completion of your proposal.

Please remember that your narrative must explain in detail the specifics of your proposal and any missing information may result in the need for future reviews. Your narrative can be typed and printed on a separate sheet of paper with “See Attached” written below, or you may print out legibly your narrative on the lines provided.

PARCEL NUMBER(S): 211016-11004
OWNER: JOSH GOLOB

This is an application for a two two-lot short subdivision under the small lot provision of YCC 19.11.010(3). The property contains an existing conventional home and a manufactured home that has been in existence since 1969. A similar application was made for preliminary short plat in 2012 under File Number SUB 12-80 but the approval decision has since expired. The decision did acknowledge the existence and legality of the manufactured home.

The property is being used for pasture and raising livestock. Surrounding properties are primarily in agricultural production as well. Access is unchanged with each of the two homes to use existing separate driveways.

The two homes utilize an existing shared well that has been in existence since 1969 or earlier. They each have a separate on-site septic system. The system on proposed Lot 1 was replaced since the 2012 preliminary decision was issued. As a result, both systems are more than 100 feet from the well.

Discussion of Application Items:

It is our understanding that a Yakima County Water Resource System checklist is not required when, as is the case here, there are two legally existing residences with an existing well or wells.

Under YCC 19.25.020(2)(a) & (b), connection to regional, public or area-wide water and sewer systems using the availability criteria of YCC 19.25.030 is required for divisions of land that create vacant lots. There are similar requirements for lots with legally existing structures that require sewage disposal and a potable water supply when they are in urban growth areas, RS zones and cluster developments of more than one lot. This application would not be subject to either of these code provisions because neither lot is vacant, and it is not in an urban growth area, RS zone and it is not a cluster development.

Access and County road suitability was evaluated for the previously approved preliminary short subdivision in 2012. The decision required the dedication of 35 feet of right-of-way (measured from the centerline) for Yakima Valley Highway on the small lot frontage and road approach permits. A 5-foot right-of-way dedication is shown on the site plan.
