The Narrative Form is designed to help you, the application review, interested agencies, and adjacent property owners to the proposal understand the scope of your project and how your project meets the legal requirements in the Yakima County Codes. You should refer to the appropriate sections of the ordinance when describing your proposal if applicable. You can obtain a copy of the ordinance in our office or access it on the internet at:

<http://codepublishing.com/wa/yakimacounty/>

**Narrative Content:** Please tell us the “who,, “what,, “where,, and “why,, of your proposal. A list of typical content is provided below. **Please do not limit your project’s description to just these items.** In order for us to conduct a timely review of your project please **be as detailed as possible.** Any missing/confusing information could result in the delay of our review.

Note: Not all content listed below will be pertinent to your proposal. These items are suggestions in order to help you draft your narrative.

**Suggested Content:**

- Describe the current use of the site including all existing structures with their dimensions, square footage and usage.
- Describe the proposed use in detail (including but not limited to the type of business and/or use, hours and days of operation, number of employees, number of people living on-site, maximum number of customers and/or guests, changes or additions to the driveways or other access points, the type of mitigation or adjustment requested).
- Describe which standards are proposed to be adjusted and justify why the standard needs to be adjusted.
- Describe any new or existing structures to be used as part of this proposal.
- Describe how the proposed use will be pertinent to the proposed/existing structures.
- Describe any parking facilities (number of spaces and surface type), landscaping, signage, and lighting that will be associated with your proposal.
- Describe your access to the property and the route of travel to the site.
- For commercial operations describe the travel ways that will be located onsite.
- Describe the timelines for completion of your proposal.

**Please remember that your narrative must explain in detail the specifics of your proposal and any missing information may result in the need for future reviews.** Your narrative can be typed and printed on a separate sheet of paper with “See Attached,, written below, or you may print out legibly your narrative on the lines provided.

Tom,

Here are my review notes:

Parcel 20102513001 fronts Chambers and Slayton Road.

Slayton Road Functional Class: 09 Rural Local Access. R/W In place: 0 Additional R/W to be dedicated: 30' from center alignment

Chambers Road Functional Class: 09 Rural Local Access R/W In place 0 : Additional R/W to be dedicated: 30' from center alignment

Neither roads are up to the minimum design standard. Both will need to be improved to the minimum design standards of YCC 19.23.45 from the furthest affected part of the land development to the nearest paved road.

(Paved, 20 year lifespan, ASSHTO Standards, Designed by engineer, 2 Lanes, 11 foot lanes, 4' shoulder)

Yakima County Code 19.23.040, as it pertains to the required improvements:

(d) Rural Access Roads.

(i) Frontage Improvements Required

(B) Gravel. Where development is served by a gravel rural access road, the roadway shall be improved to current adopted County road standards along the entire frontage of the property. A financial contribution, in lieu of frontage improvements, may be proposed for consideration by the County Engineer. No design modification for surface type will be granted.

(3) Connectivity.

(iv) Be extended by the developer to and through the proposed development.

If you wish to proceed with this land development, please attach a copy of this email so I can sign off on the EAC Meeting.

RE: Wells and water systems for a future subdivision on parcel 201025-13001, located at 460 Chambers Road, Toppenish.

Mr. Upton:

The Yakima Health District has reviewed the above referenced application regarding water systems that may be associated with this project according to the requirements in YCC 19.25.040. A site visit was not done as a part of this review. Our findings are presented below:

#### Group A Water Systems

We checked our files and the Washington State Department of Health community water system database (SENTRY). We did not find any existing Group A water systems within 200 feet of this development.

#### Group B Water Systems

We checked our files and the Washington State Department of Health community water system database (SENTRY). We did not find any existing Group B water systems within 200 feet of this development.

#### 2-Party Shared Wells

The location of the well serving this property is unknown. If it is a buried well head, it does not meet the criteria for a shared well (well head extending a minimum of 6 inches above grade, a well cap without a vent, an unknown septic location). If the well is located beneath the house, it does not meet the criteria for a shared well because of encroachments in the well zone (the house and an unknown septic location).

#### Individual Well(s)

The Yakima Health District does not object to the use of the existing well at this site as an individual well.

No review of water quantity or availability was done by the Yakima Health District. Our review of your water system does not confer or guarantee any right for you to withdraw or divert groundwater. Contact your local planning department, the Washington State Department of Ecology, or the Yakama Nation for more information about your legal rights to use groundwater.

If you have any questions, please call me at (509) 249-6562.

Sincerely,
