The Narrative Form is designed to help you, the application review, interested agencies, and adjacent property owners to the proposal understand the scope of your project and how your project meets the legal requirements in the Yakima County Codes. You should refer to the appropriate sections of the ordinance when describing your proposal if applicable. You can obtain a copy of the ordinance in our office or access it on the internet at:

<http://codepublishing.com/wa/yakimacounty/>

Narrative Content: Please tell us the “who”, “what”, “where”, and “why” of your proposal. A list of typical content is provided below. **Please do not limit your project’s description to just these items.** In order for us to conduct a timely review of your project please **be as detailed as possible**. Any missing/confusing information could result in the delay of our review.

Note: Not all content listed below will be pertinent to your proposal. These items are suggestions in order to help you draft your narrative.

Suggested Content:

- Describe the current use of the site including all existing structures with their dimensions, square footage and usage.
- Describe the proposed use in detail (including but not limited to the type of business and/or use, hours and days of operation, number of employees, number of people living on-site, maximum number of customers and/or guests, changes or additions to the driveways or other access points, the type of mitigation or adjustment requested).
- Describe which standards are proposed to be adjusted and justify why the standard needs to be adjusted.
- Describe any new or existing structures to be used as part of this proposal.
- Describe how the proposed use will be pertinent to the proposed/existing structures.
- Describe any parking facilities (number of spaces and surface type), landscaping, signage, and lighting that will be associated with your proposal.
- Describe your access to the property and the route of travel to the site.
- For commercial operations describe the travel ways that will be located onsite.
- Describe the timelines for completion of your proposal.

Please remember that your narrative must explain in detail the specifics of your proposal and any missing information may result in the need for future reviews. Your narrative can be typed and printed on a separate sheet of paper with “See Attached” written below, or you may print out legibly your narrative on the lines provided.

see next page

The proposed action is to Subdivide an existing parcel of approximately 14 acres into two small lots each containing an existing residence and individual septic tank and drainfield; and a third parcel remainder of 9.7 acres.

Parcel 1 is proposed to access Emerald Road from 36' wide panhandle parcel configuration.

Proposed parcel 2 will continue to use a shared approach to Emerald Road via an existing access easement AFN 7756971.

Proposed lot 3 will continue to use existing paved driveway and approach to Emerald Road.

Existing well on lot 3 presently serves existing homes on lots 2 and 3.

Expanded Narrative: November 15, 2017

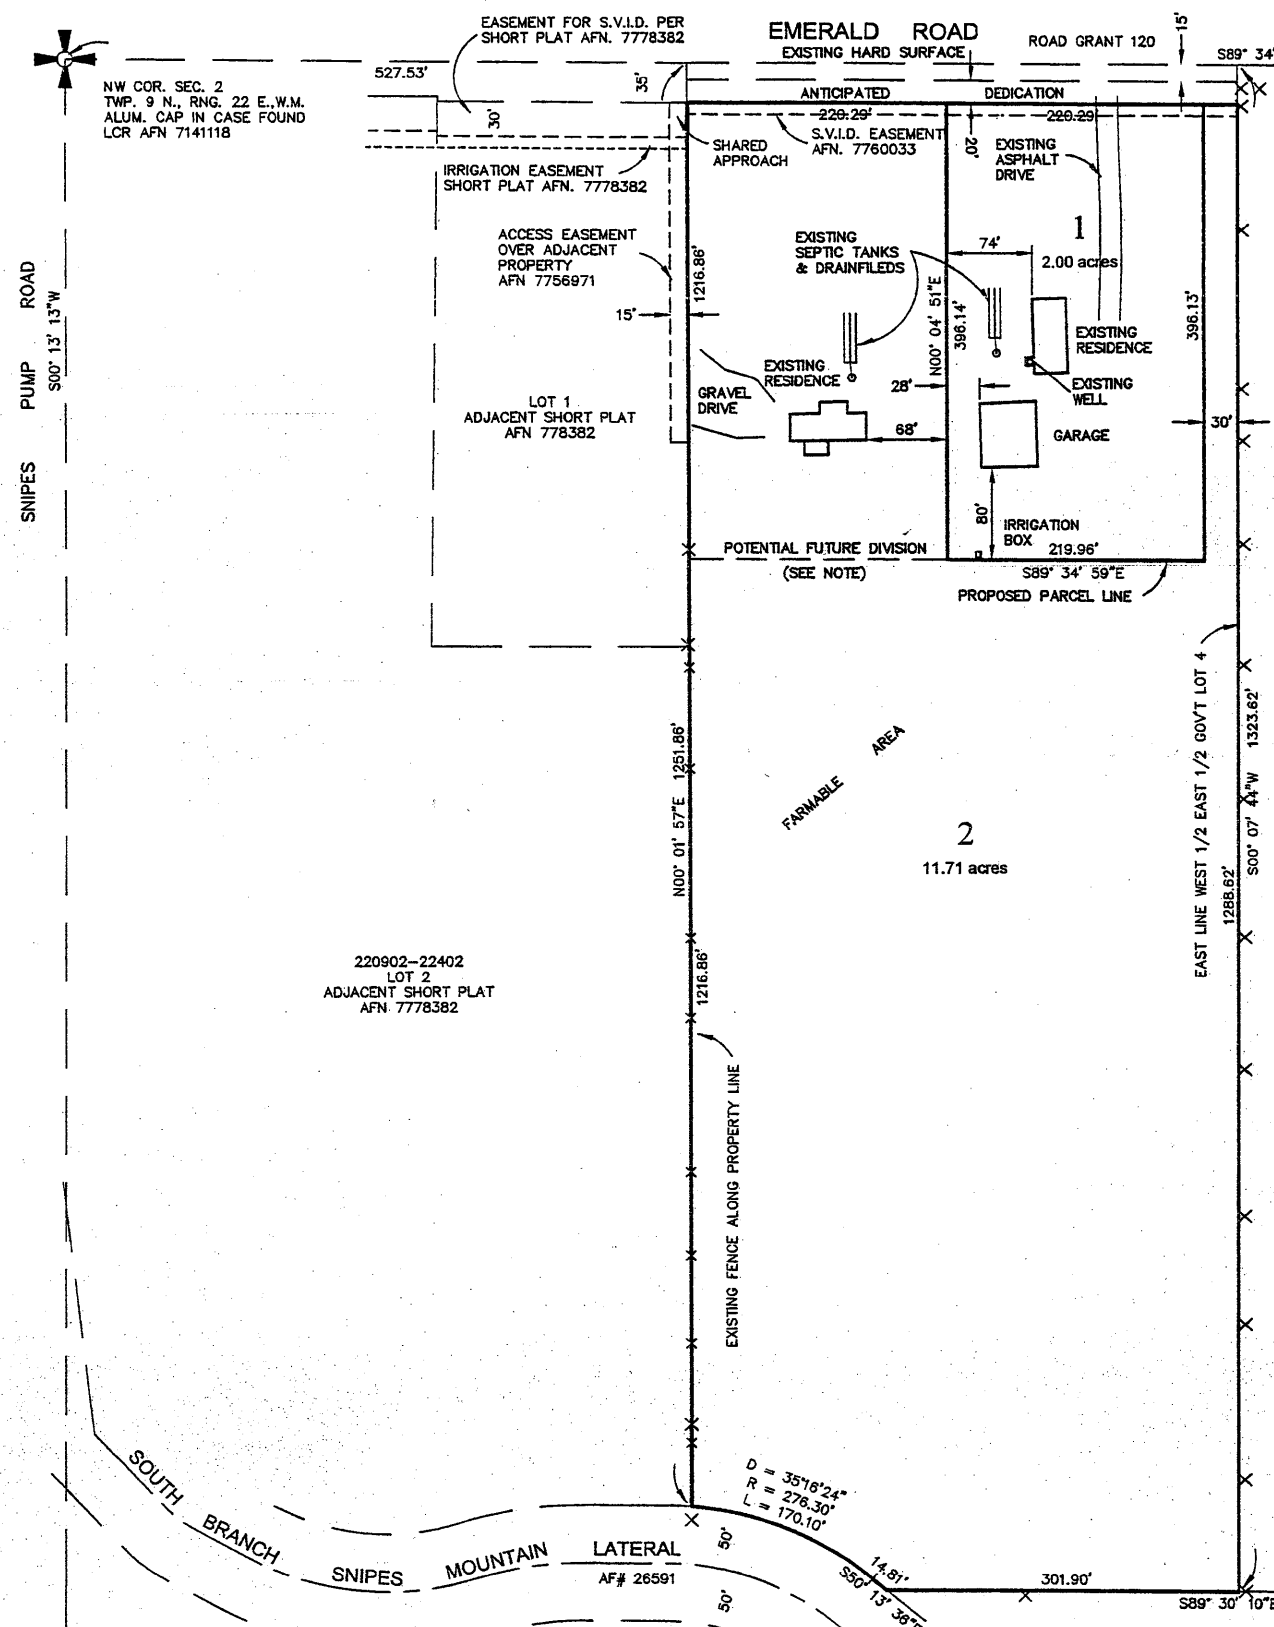

Due to inability to satisfactorily confirm status of the existing residences, the three lot short plat has been modified to one existing home with existing well on Lot 1; and the other existing residence with proposes new individual well on remaining Lot 2. It is the applicants intention to immediately, upon short plat final approval, merge farmable portion (approximate Southerly 9 acres) into adjacent Parcel 220902-22402, and thereby complete process of placing each residence on a separate and individual self contained lot. As permitted by Code.

RE: Wells and water systems located at 8690 Emerald Rd, Sunnyside (parcel number 220902-22008).

Mr. Householder,

The Yakima Health District has reviewed the above referenced application in regards to water systems that may be associated with this project according to the requirements in YCC 19.25.040. A site visit was not done as a part of this review. Our findings are presented below:

Group A Water Systems

We checked our files and the Washington State Department of Health community water system database (SENTRY). We did not find any existing Group A water systems within 200 feet of this development.

Group B Water Systems

We checked our files and the Washington State Department of Health community water system database (SENTRY). We did not find existing any Group B water systems within 200 feet of this development.

2-Party Shared Wells

Our review of the supplied information shows an existing 2-Party well serving the existing residences in this project. It appears that this well cannot be approved as a 2-Party Shared Well because of the existence of potential sources of contamination inside of the 100 foot sanitary control area (Septic Tank and Drainfield within 100ft; Residence and garage within 100ft).

Individual Well(s)

The existing well at this site does meet the criteria for an individual well serving one single family residence.

No review of water quantity or availability was done by the Yakima Health District. Our review of your water system does not confer or guarantee any right for you to withdraw or divert groundwater. Contact your local planning department or the Washington State Department of Ecology for more information about your legal rights to use groundwater.

If you have any questions, please call me at (509) 249-6533.

Sincerely,

Shawn Magee
Environmental Health Specialist
