The Narrative Form is designed to help you, the application review, interested agencies, and adjacent property owners to the proposal understand the scope of your project and how your project meets the legal requirements in the Yakima County Codes. You should refer to the appropriate sections of the ordinance when describing your proposal if applicable. You can obtain a copy of the ordinance in our office or access it on the internet at:

<http://codepublishing.com/wa/yakimacounty/>

Narrative Content: Please tell us the “who”, “what”, “where”, and “why” of your proposal. A list of typical content is provided below. **Please do not limit your project’s description to just these items.** In order for us to conduct a timely review of your project please **be as detailed as possible.** Any missing/confusing information could result in the delay of our review.

Note: Not all content listed below will be pertinent to your proposal. These items are suggestions in order to help you draft your narrative.

Suggested Content:

- Describe the current use of the site including all existing structures with their dimensions, square footage and usage.
- Describe the proposed use in detail (including but not limited to the type of business and/or use, hours and days of operation, number of employees, number of people living on-site, maximum number of customers and/or guests, changes or additions to the driveways or other access points, the type of mitigation or adjustment requested).
- Describe which standards are proposed to be adjusted and justify why the standard needs to be adjusted.
- Describe any new or existing structures to be used as part of this proposal.
- Describe how the proposed use will be pertinent to the proposed/existing structures.
- Describe any parking facilities (number of spaces and surface type), landscaping, signage, and lighting that will be associated with your proposal.
- Describe your access to the property and the route of travel to the site.
- For commercial operations describe the travel ways that will be located onsite.
- Describe the timelines for completion of your proposal.

Please remember that your narrative must explain in detail the specifics of your proposal and any missing information may result in the need for future reviews. Your narrative can be typed and printed on a separate sheet of paper with “See Attached” written below, or you may print out legibly your narrative on the lines provided.

This is an application for a two-lot short plat of a 15 acre +/- parcel in the Rural 10/5 zoning district. The property is to be subdivided into two lots of five and ten acres +/-, respectively (no less than five acres). Lot calculations for the application have been made in accordance with YCC 19.13.030(3) and include 30 feet of the adjoining right-of-way width of Fisk Road.

The property contains an existing residence of conventional construction. Surrounding properties are a mixture of residential, agricultural and vacant parcels mostly around five acres in size but ranging from two to ten acres. The residence on proposed Lot 2 is served by an existing well and septic system. An individual well and septic system is proposed on Lot 2. Since the lots are proposed to meet the 5-acre minimum lot size, individual systems are allowed by Table 19.25-1 provided that the property is outside of the service area of a County water system, which according to the letter received for early assistance (EAC 2017-00123), is the case in this location.

The subject property has frontage on County owned and maintained Fisk Road. An existing shared driveway serving the residence is proposed for access to both lots. As shown on the site plan it will utilize an access easement on the smaller of the two lots to maintain the proposed 5-acre minimum lot size. If the lot size can be maintained with the driveway on the larger lot or if other access is determined to be appropriate, this configuration may be modified.

According to the Early Assistance letter (EAC 2017-00123), the driveway that serves the two proposed lots also serves two lots south of the subject property. That isn't necessarily the case. Parcel 171333-14020 has legal access from an improved private access easement along the east boundary of the site. Parcel 171333-14009 can access Fisk Road across the subject property.
